

MONASH University

East Gippsland Regional Clinical School
School of Rural Health
Faculty Medicine Nursing and Health Sciences

25th June 2010

Dear Doctor,

I am writing to inform you of the opportunity for Academic Registrar posts at the East Gippsland Regional Clinical School in Bairnsdale or Sale for 2011. As you may be aware GPET funding is available for Academic Registrar posts or teaching and research activities within the University.

The East Gippsland Regional Clinical School has several projects in progress that would be suitable for the Academic Registrar positions, these include research projects in Mental Health, Aged Care and GP referral patterns in Gippsland.

We invite you to consider these opportunities. The positions would also include the opportunity to teach into MBBS East Gippsland as tutors for all years of the curriculum.

If you are interested in such a position or have any other ideas for research that are of interest to you please contact Dr David Campbell at the East Gippsland Regional Clinical School.

Yours sincerely,

Dr David Campbell
Associate Professor,
Rural Community Based Medical Education
Director
East Gippsland Regional Clinical School.
